

Shipping Instructions
Shipping Silver Recovery Material from Canada to the USA
(Updated 04-24-09)

I. All shipments should be made via Yellow Motor Freight – Collect

II. A Bill of Lading and copy of a “Commercial Invoice” must be given to the Yellow Motor Freight driver at the time of pick up.

A. Bill of Lading preparation:

1. List the consignee as: HRC, 1016 Dale Lane, Mt. Vernon, WA 98274 (telephone: 360-428-5880 fax: 360-424-8118).

2. List complete name and address of shipper.

3. Check the “Freight Collect” box.

4. Describe the material as:

Silver Flake: Containers of Used Metal Chip to include: Flake Item #136500, Sub 1, Class 70, RVNX 0.40. HS Tariff Number 7112.99.

Cartridges, Sludge, Resin, etc: Containers of Photo Residue, Solutions Exhausted Film Developing, Liquid and, Non-Concentrated to include: Sludge, tank scrapings and cartridges. Item #195410, Class 60, RVNX 0.40. HS Tariff Classification Number 7112.99.

Shipping multiple items: A) when palletized: each piece on the pallet must have a shipping label attached. List each pallet separately. (Include the number of pieces on each pallet.) B) Non-palletized: each container must have a shipping label attached. List the total number of pieces and their combined weight.

5. Type/write clearly on the face of the Bill of Lading, “For Customs Clearance at the border: contact UPS Supply Chain Solutions.” (Main office telephone number is 360-332-5222)

B. Commercial Invoice Preparation:

1. Create a “Commercial Invoice” as follows: type or write “Commercial Invoice” near the top of a sheet of your company letterhead and list the following information:

A. Date

B. Shipped to: HRC, 1016 Dale Lane, Mt. Vernon, WA 98274

C. Material shipped: describe material as on Bill of Lading and include weight of shipment.

D. Value – estimated value of shipment:

Flake: Net weight x 14.6 x \$10.00 x 0.9 = estimated value

Cartridges: \$50.00 per cartridge
